-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 10 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Kinley 4572288 in view of Anderson 5369579.

Referring to claims 10 and 14, Kinley discloses an apparatus for releasing cable comprising cable cutter (105) is arranged between a cable and a well tool the cutter comprising an electronic timer (29), which control the cable cutter, the timer comprising a receiver (51) for receiving reset signals and an outlet (E3 to igniter see fig. 4) for control of a cutter control (A, electric igniter see fig. 5) which is connected to the cutter (105) and a pickup (53) which generates reset signals. Kinley does not disclose auxiliary inlets. Anderson teaches a cutter control that has auxiliary inlets in order to get formation information before, during and after blast of an explosive charge (col. 3, lines 48-52). As it would be advantageous to have formation information before, during and after blast of an explosive charge, it would be obvious to one of ordinary skill in the art at the time of the invention to modify the method disclosed by Kinley to have auxiliary inlets in view of the teachings of Anderson.

Allowable Subject Matter

3. Claims 1-2,4-7 and 15-17 are allowed.
4. Claims 12-13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 12/27/07 have been fully considered but they are not persuasive. The applicant argues the circuit (53) disclosed by Kinley is not a pickup. However, the circuit pickups a signal to indicate power is being applied (col. 4, lines 59-60). Therefore, as broadly claimed, circuit (53) is a pickup.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3672

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
